

Governor Information for Website

Name: Fleur Seekins

I became a governor of SHS as my children made the transition from primary to secondary school and I have a keen interest in education. Previous to this I had over 10 years' experience of primary school governance. I became a governor because the early years of a child's life including adolescence is important and all children have a right to a high-quality education to help them achieve their potential. Initially I brought enthusiasm, commitment and willingness to ask questions but over the years I have been able to use knowledge within my work field to be supportive within school governance.

I am the joint Chair of Governors along with Clare Hook for the college. I am also the governor responsible for safeguarding.

My main interests are my family; juggling all of our busy commitments within our working week. As a family we enjoy a variety of sporting activities including skiing, mountain biking and swimming.

As a local I too attended Sir Harry Smith, hence my keen interest to support the school. This led me to thoroughly enjoy my career as a nurse, midwife and then for many years as a health visitor. Latterly I work more strategically within health and a key part of my role is clinical governance for health visiting and school nursing.
