

## Governor Information for Website

**Name: Stuart Anderson**

Having previously served as a parent governor in a primary school, I soon realized that the importance of having representatives from the wider school family is important in providing support & guidance to the school senior management team.

The sense of being involved in improving the learning for students and helping as a volunteer bringing my skills to the organization in a meaningful way gives me a lot of personal satisfaction.

I have served with Cambridgeshire special constabulary for 36 years mainly in the Peterborough & Fenland area, my current role is based at force headquarters, carrying out a strategic learning & development / recruitment functions.

I am a keen indoor bowls player at the Whittlesey indoor bowls complex. I have also helped out with the street pride group and was proud to have been a member of the Lions charity organization for ten years. Other interests include reading, travel, photography & the cinema.

I am married with two adult children and have lived in Whittlesey for over twenty years now so I consider myself to be a "local" at last. I am proud to live in such a supportive and caring town. We are blessed with so many events and activities available on our door step and I especially enjoy the colour and razzmatazz of the Straw Bear Festival which brings brightness and fun to a dull period after the Christmas celebrations.
