

Press Release:

Sir Harry Smith Community College

A level Exam Results 2018

I am delighted with the results that our students have achieved this year. At A Level 70% of entries were awarded A\*-C grades, 36% of entries were awarded A\*-B grades and 16% of entries were awarded A\* or A grades. This is a superb and very well deserved achievement and reflects the exceptional efforts of both our students and staff. This is especially pleasing considering the vast majority of these students completed the new reformed A Levels which now include refreshed content with greater input to universities, AS results no longer counting towards an A Level and linear assessments with A Levels being assessed at the end of the two years of study.

For our vocational qualifications, 100% of entries were awarded a Distinction\* (D\*) to Pass grade, with 91% being awarded a Distinction\* to Merit.

I would like to congratulate all of our students who have worked extremely hard this year to achieve this level of success. I would also like to thank all of our staff for their continued and unwavering hard work and commitment to ensuring the very best outcomes for all of our students.

Dawn White

Principal
