

## Why a became a governor

Before working in the computer industry, I trained as a primary school teacher and I have been interested in education since then. I am very keen to support the school using the skills I have developed in the work place and in voluntary work in the local community. Voluntary work has been very rewarding for me and I am looking forward to being an effective member of the school's governing body and learning new skills too.

## Role

My role is that of Parent Governor and I have recently been elected as the Vice Chair of the Board of Governors.

## Interests

I have been a Special Constable for nearly 30 years, initially with the Metropolitan Police and subsequently in Cambridgeshire where I have been based in Whittlesey and for a time in Huntingdon. I have in the past, managed a local football team and I continue to support my son's football team from the side lines! I play bass guitar and occasionally Flute. I am teaching myself how to play the keyboard and trying to write my own music.

## Background

I was born in South London and moved to Cambridgeshire after meeting my wife Clare. We have lived in Whittlesey for 18 years. I have a degree in Primary Education but work in the Computer Industry writing software and e-commerce websites. I have been a speaker at professional conferences in America and in Europe. I have two children that attend SHSCC.
