

Sir Harry Smith Community College

Community Facilities

Proud to be at the heart of our community

Community Facilities

Sir Harry Smith Community College has recently undergone a major building programme as part of the 'Building Schools for the Future' Initiative. This has seen over £10 million of investment to enhance our facilities. Our students are already benefiting from these, including:

- New facilities for sport such as a new multi-purpose games area, new tennis courts, and a refurbished sports hall
- New facilities for performances, drama/dance and music
- New learning spaces, together with enhanced dining and social areas.

These facilities are also available for hire by local community groups and individuals.

Sports and Sporting Facilities

Three court sports hall

Two multi activity game areas,
one of which is brand new

Two new hard surface tennis courts, to complement the two we already have.

In addition we have large playing fields with football and rugby pitches, and three new cricket wickets, designed and installed to Sport England standards.

Performance, Drama and Dance Facilities

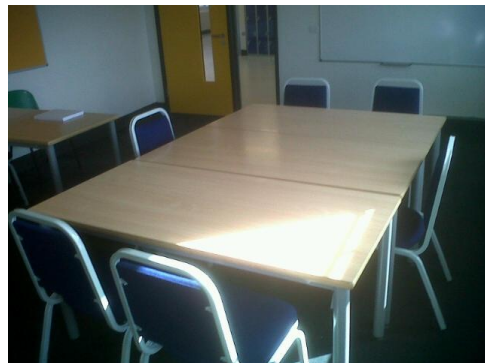

Our building programme has meant that we now have state of the art performance hall and stage facilities. We have invested over £90,000 in a new sound and lighting system, making these facilities among the best for performance in and around the Whittlesey area. The main hall can seat over 500 with 200 in raised bleacher seating. This can be set to the back of the hall for larger performances, or moved forwards for a more intimate feel.

Smaller performances or practice space is available in one of our two new 90m² drama rooms. One of these has a specialist dance floor, whilst the other has bleacher seating for 40, making it ideal for smaller presentations or performances.

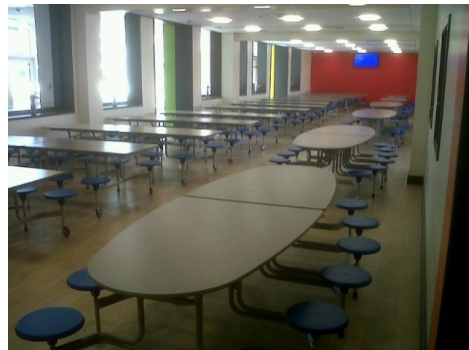

Other Facilities

Classrooms, conference or meeting rooms

Dining and social facilities

Contact

Please contact us for more information about these or any other facilities you may wish to hire. Most prices start from as little as £15.00 per hour.
