Dear Student,

As a college we would like to inform you of the entire Skills for Life programme for all of Years 7 to 11. The subject covers many areas important for students' health and well-being, and to help you understand and take your place in modern society. These lessons also form the core basis for statutory RSE and HSE at the college.

By making the schemes of work and lessons accessible to you all hopefully you will see the overall plan and how the subject helps you develop as individuals across the years. The schemes of work for all years are accessible via the link below:

Students are also able to view all the suggested lessons and resources available for teachers to use if they wish, via the below link, although teachers are free to adapt these or use other resources if they wish.

In addition to the timetabled lessons, we aim to use assemblies, tutor times and off-timetable events to cover a wide variety of other areas, including careers and economic education, first aid training, environmental education, politics and political systems and current affairs such as the recent issues surrounding peer on peer abuse in schools nationally. One way we do this can be seen under the 'Theme for the week' folder where themed discussions are set for use by tutors.

Even though much of the content is now statutory, as in previous years, I am always happy and willing to consult and discuss with students receiving feedback directly or via the main student groups of the student council, student voice and the discussion group looking at peer on peer issues, so if you do have any questions or queries over the topics, or would like further details on each topic, please do feel free to contact me on the following e-mail address:

Yours faithfully
